Taxback International accesses data and images for an audit analysis via Chrome River

Taxback International arranges refund

USPs

Free analysis

See how much VAT you could be missing out on, or benchmark current process securely.

VATConnect - Analytics

Real-time reporting provides 24/7 visibility into your VAT reclaim status and overall VAT opportunity. Prescriptive analytics provide actionable insights into what you can reclaim, and foresights into any gaps to help you get the highest possible reclaim and improve compliance rates year after year.

Seamless

Wholly-owned process and multilingual team.

Security

Bank-level security (ISO 27001).

Zero risk, full indemnity

VAT compliance is high risk, our solution ensures full compliance.

Continuous improvement

Advanced and prescriptive analytics and enhanced audit programs provides insight and foresight into any gaps in your compliance and recovery programs to ensure you get the highest possible reclaim and improve compliance rates of your invoices year after year.

Audit

Analyse expenses, isolate issues, eliminate fraud and ensure compliance.

“A thoroughly professional and competent organisation. We have valued their flexibility in dealing with the specific requirements in our industry and our inter-company and partner transactions.”

Red Bull Racing

“Taxback International allows us to focus on our day to day activities while they deal with the tax offices directly – which is a headache we don’t need!”
